

## CAPABILITY STATEMENT

### Remote Data Processing, Structuring, and Software Services

#### OVERVIEW

TracSheet LLC is a small business delivering remote data and software services to government agencies and prime contractors. We take raw, inconsistent, or unstructured information and turn it into clean, accurate, standardized data ready for reporting, compliance, and decision-making. Our delivery is remote-first and lean, which keeps turnaround fast and cost low without trading away accuracy.

#### CORE COMPETENCIES

- **Data processing:** entry, cleansing, transformation, and validation
- **Data formatting and standardization** for reporting and compliance
- **Data structuring** and organization of large or unformatted datasets
- **Custom software and application development**, including web and cloud-based tools
- **Database design**, setup, and ongoing support
- **Systems design** and integration support

#### DIFFERENTIATORS

- **Remote-first delivery** keeps overhead low and turnaround fast
- **Responsive to agencies nationwide**, not limited by geography
- **Accuracy and quality control** built into every step of the work
- **Direct principal involvement** on every engagement, with no layers to route through

#### ENGAGEMENT

TracSheet is available for subcontracting, teaming, and prime opportunities at the state, local, and federal level. As an emerging small business, we welcome the chance to demonstrate capability on a first engagement and build long-term performance from there.
